

REPAIR KITS

Brake Calipers

2012

To order a repair kit, use the basic model number of the product followed by -RK. For example, a repair kit for a 5024-A is 5024-A-RK.

The Parts Discount applies to all repair kits.

Repair Kits

Viton seals are recommended when the oil temperature is 150 degrees Fahrenheit or higher.

Standard seals are used wherever possible. That makes it easier to find replacement parts locally.

For any items not listed in this document, please consult Kobelt Sales and Technical Support Department at 604-572-3935 or sales@kobelt.com.
